

Will Shakespear's Society

Use the list of 10 Society Rules to explain the examples:

- 1 A prince is ship wrecked on an island and can't remember who he is. Reck, the illegitimate son of a greedy farmer, finds him. He tries to get the prince to join in robberies, but the prince doesn't want to, even though Reck calls him "Brother."
- 2 A noble, good man, named John is bewitched by a spell to kill his lord. The storms and earthquakes make the townspeople afraid. They beg the doctor to cure him from his ill humor. The cure is a poison, but John returns to his noble self before he dies and will go to heaven.
- 3 When King George decides he no longer needs to obey God, his son gets a vision that God wants him to replace his father. He is torn because he knows it is wrong to kill the king, but the king is wrong to be against God.
